

Scholengroep Sint-Rembert is committed to offering high-quality, contemporary education and promotes lifelong learning among both its staff members and its pupils. Participating in international projects is a way of bonding and growing personally in our rapidly evolving, global society.

Having accreditations in the field of School Education and Vocational & Educational Training, we want to offer as many pupils and staff as possible the opportunity to engage in an international experience: either in terms of content (internationalisation @home by acting as a host for foreign partners or participating in a digital project) or by means of a physical mobility.

By ensuring an international focus, our pupils can develop an open view on the world, collaborate on (subject-related) projects across our national borders, improve their language skills and reinforce their sense of responsibility and commitment in life. As far as our staff is concerned, internationalisation represents a unique opportunity for further professionalisation and boosts the general motivation.

In order to accomplish our international plans, we can rely on the support of our National Agency Epos, the Province of West Flanders and the internationalisation department of Katholiek Onderwijs Vlaanderen.

Triggered to find out more about our international goals and projects? Interested in cooperating and establishing a long-term partnership with one (or more) of our 23 primary or secondary schools? Be sure to contact our coordinator internationalisation: [fanny.deschryver@sint-rembert.be](mailto:fanny.deschryver@sint-rembert.be)
